PROFESSIONAL SUMMARY

A motivated and adaptable professional with extensive coursework in computer fields and hands-on experience in operations administration and data management. Possesses strong skills in time management, data analysis, and communication. Eager to apply knowledge and practical expertise to contribute effectively to the industry.

WORK EXPERIENCE

HR System & Digital Specialist *August 2026 – Present*

Primeline Products Philippines Inc., Bagong Ilog Pasig

- Automated HR administrative workflows using Microsoft Power Automate and Google Apps Script, reducing manual effort and improving process efficiency.
- Developed and analyzed HRIS datasets to design interactive dashboards, enabling data-driven insights for workforce management.
- Streamlined HR operations by integrating automation tools with analytics, enhancing accuracy and decision-making speed.
- Engineered digital HR solutions combining workflow automation and dashboard visualization to support strategic HR initiatives.

Operations Admin Assistant/ Data Analyst *March 2024 – August 2026*

777 Precision Media Corp., BGC, Taguig City

- Automated 50% of operations task including letters, issues and concern, reminders to coordinators, Transpo Matrix, etc., using google app script, power automate, and VBA.
- Create and program text blast for inventory and DTR reminders to merchandisers using python and Semaphore.
- Engineered dynamic Excel models for weekly, cut-off, and monthly attendance logs exported from the Tarkie field automation app, to identify critical attendance trends and peak absenteeism patterns across various retail outlets.
- Monitored and managed manning databases to ensure operational efficiency.
- Responded promptly to inquiries and calls from the sales team.
- Provided operational support to logistics and tactical departments.
- Managed and analyzed end-to-end inventory tracking reports; maintained dashboards that streamlined operations, enhanced visibility, and supported data-driven decision making.

Office Staff / Data Encoder *March 2021 – 2022*

Department of Environment and Natural Resources, Butuan City

- Input and validated land data into computer systems using LAMS.
- Assisted geodetic engineers with queries and data processing tasks.

PROJECTS

Retail Merchandiser Attendance & Tarkie Compliance *Excel, Power BI*

777 Precision Media Corp

- Built a Power BI dashboard on top of Excel-validated attendance data to flag clock-in exceptions and location non-compliance across multiple retail outlets.
- Consolidated multiple field-export spreadsheets into a single data model, cutting the time spent on manual attendance audits.

Inventory Monitoring *Excel, Power Query, Power BI*

777 Precision Media Corp

- Used Power Query to clean and standardize inconsistent field inventory files exported manually from a field coordinator.
- Built a Power BI dashboard giving stakeholders real-time visibility into inventory and sku.

Automated Admin Task *Google Apps Script, G-Sheet*

777 Precision Media Corp

- Built a Google Sheets-based automation that scans daily field submissions and instantly notifies managers of missing or overdue reports.
- Built an automate request letters than can automatically generate into PDF and send to the field Coordinator automatically

Transportation Matrix Automation *Excel, VBA*

777 Precision Media Corp

- Developed a VBA-driven Transportation Matrix that auto-populates distance and travel time data across multiple routes, eliminating manual entry and reducing errors.
- Enable accurate cost tracking and compliance monitoring, helping company to avoid overcharges from merchandisers and ensuring fair, transparent transpo expense reporting.

Text Blast *Excel, Python, Semaphore*

777 Precision Media Corp

- Implemented a Python-based SMS reminder system integrated with Semaphore and Excel to send daily inventory and delivery notifications to merchandisers, ensuring timely compliance and reducing missed schedules.
